TÜRKİYE CUMHURİYET MERKEZ BANKASI

EVDS Terms of Use

All users accessing the Electronic Data Delivery System (EVDS) application shall be deemed to have read, understood, and accepted the conditions set forth below, in addition to the terms of use of the Central Bank of the Republic of Türkiye (CBRT) website [1].

1. Definitions

- **API:** An interface that enables different systems to communicate through predefined rules and protocols.
- **Large Language Model:** An artificial intelligence model used by the MCP Client to process and interpret text and data.
- **Large Language Model Provider:** A third-party organization that makes the Large Language Model available to the User.
- **EVDS MCP:** A service that provides EVDS data through the MCP standard, enables the MCP Client to query EVDS data, and is made available by the CBRT through its official channels.
- **EVDS Application:** The CBRT's EVDS web interface.
- **EVDS Web Service:** An API that provides programmatic access to EVDS data.
- **User:** Any natural or legal person that accesses the EVDS Application, EVDS Web Service, or EVDS MCP, either directly or through a client application, as well as authorized users acting on behalf of a legal person.
- **MCP (Model Context Protocol):** A protocol that enables artificial intelligence models to communicate with external data sources, services, and tools in a standardized manner.
- **MCP Client:** An application, interface, plugin, or software component that is used by or on behalf of the User, connects to EVDS MCP, operates with a Large Language Model, and is not under the control of the CBRT.

2. General Provisions

- All content made available through the EVDS Application, EVDS Web Service, and EVDS MCP is published by the CBRT for informational purposes only and does not constitute any commitment to any person or organization.

- The CBRT reserves the right, without prior notice, to modify or discontinue the publication of any data available through the EVDS Application, EVDS Web Service, and EVDS MCP, or to make changes to the design of the relevant components.

- Users are advised to seek professional advice on the relevant subject matter before using the EVDS Application, EVDS Web Service, or EVDS MCP.

3. Use of Information and Source Attribution

- Data made available through the EVDS Application, EVDS Web Service, and EVDS MCP may be used and published by third parties, provided that the source is cited.

- Where data made available through the EVDS Application is translated into a language other than Turkish or English, it must be stated that the translation is not an official translation prepared by the CBRT.

- Where data made available through the EVDS Application, EVDS Web Service, or EVDS MCP is used in another product or publication, whether for commercial or non-commercial purposes, no additional fee may be charged to the users or subscribers of that product.

- Reports, tables, charts, and other outputs generated using EVDS MCP must clearly state that the CBRT acts solely as the data provider, that the interpretations and analyses are generated by artificial intelligence, and that such AI-generated outputs may be inaccurate, incomplete, or misleading.

4. Limitation of Liability

- The CBRT exercises the utmost care to ensure that the data made available through the EVDS Application, EVDS Web Service, and EVDS MCP is current, accurate, and complete. However, the CBRT makes no representation or warranty regarding such data and accepts no liability in relation thereto.

- The CBRT shall not be liable for any direct or indirect loss or damage arising from the use of, or inability to access, the EVDS Application, EVDS Web Service, or EVDS MCP.

- The CBRT may temporarily suspend or restrict the EVDS Application, EVDS Web Service, or EVDS MCP due to maintenance, updates, security measures, or force majeure events. The CBRT shall not be held liable for any interruption arising therefrom.

- Although most of the information made available through the EVDS Application, EVDS Web Service, and EVDS MCP is provided directly by the CBRT, certain data is obtained from external sources. Data obtained from external sources is the responsibility of the relevant organizations, and the CBRT assumes no liability in relation to such content.

- The content of the EVDS Application, EVDS Web Service, and EVDS MCP does not constitute investment advice under any circumstances.

5. Security, Monitoring, and Access Controls

- The EVDS Application, EVDS Web Service, and EVDS MCP are protected under the laws of the Republic of Türkiye. Any action intended to damage these components, as well as any attempt to externally interfere with the data, software, or communication codes within the system, is unlawful.

- EVDS and its associated hardware are continuously monitored and audited. Users should be aware that their activities on these systems may be logged, that information relating to them may be accessed, and that such information may be disclosed to the competent authorities where necessary.

- Where deemed necessary, the CBRT may impose limits on the number of queries, concurrent connections, or similar technical parameters applicable to EVDS components and may modify such limits without prior notice.

6. Specific Terms Applicable to the Use of EVDS MCP

- The raw data provided through EVDS MCP is distinct from any interpretation, summary, table, chart, or explanation generated by the Large Language Model used by the User. The CBRT acts solely as the provider of the raw data made available through EVDS MCP. Any output generated by the Large Language Model shall not be deemed to have been created, reviewed, or approved by the CBRT.

- The Large Language Model used by the User may retrieve or select the wrong data when using EVDS MCP, misinterpret the retrieved data, produce incomplete summaries, or generate fabricated content, including numerical values or dates. Responses generated by a Large Language Model used in conjunction with EVDS MCP shall under no circumstances be construed as representing the official views of the CBRT.

- Data provided through EVDS MCP and any interpretations, summaries, charts, or explanations generated by the Large Language Model used by the User must not be used as investment advice, financial advice, a recommendation to buy or sell, or a final decision-making mechanism.

- The User is responsible for verifying, through the EVDS Application or EVDS Web Service, any results obtained through EVDS MCP and interpreted by a Large Language Model before their final use.

- The MCP Client, the Large Language Model used by that application, and the Large Language Model Provider are third parties independent of the CBRT. The CBRT has

no control over these parties and shall not be responsible for their actions, outputs, or services.

- The User is responsible for the security of the EVDS API key used to access EVDS MCP. The User shall be deemed to have accepted the risks that may arise from an MCP Client or Large Language Model Provider that is not under the control of the CBRT.

- Only EVDS MCP connection details published by the CBRT through its official channels are authentic and authorized. The CBRT shall under no circumstances be responsible for MCP tools or servers created by third parties under the names “EVDS,” “TCMB,” or any similar name. The User is responsible for verifying that the server to which they connect is the official EVDS MCP server.

- The MCP Client or Large Language Model selected by the User may be manipulated through indirect prompt injection, tool poisoning, or similar techniques. The User shall be responsible for the consequences of such manipulation and for any inaccurate, incomplete, or misleading output arising therefrom.

- Where EVDS MCP is used in the same artificial intelligence session as other MCP components that are not under the control of the CBRT, the User shall be responsible for any context confusion, data inconsistency, or incorrect association that may arise.

- Queries, files, personal data, trade secrets, or confidential information transmitted by the User to their chosen MCP Client or Large Language Model Provider may be processed and transferred abroad in accordance with the terms, privacy policies, and technical infrastructure of the relevant third-party provider. The CBRT shall not be responsible for the data-processing activities of third-party providers selected by the User. The User is responsible for ensuring that any data transferred to such third parties is handled in compliance with the Turkish Personal Data Protection Law (KVKK) and other applicable legislation.

- EVDS MCP must not be used to submit excessive or abusive queries that could disrupt the continuity of the service or prevent access by other users. The CBRT reserves the right to restrict, suspend, or terminate access in order to protect the integrity of the service.

- The CBRT shall not be held responsible for security vulnerabilities or inaccurate, incomplete, or misleading results arising from any MCP Client, plugin, or third-party tool selected by the User. The User is responsible for ensuring that the tools and plugins they use are up to date and trustworthy.
